### IAHR Media Library- New Addition

A video of the "Wastewater outfall system of Bari East - Bari, Italy" has been added to the IAHR Media Library [www.iahrmedialibrary.net](http://www.iahrmedialibrary.net) in the Maritime Hydraulics section. This movie, videotaped by scuba divers, shows the wastewater outfall system of Bari East (Bari, Italy), which is composed of a submarine pipe 900 m long from the shoreline. The hydraulic link between the treatment plant and the submarine pipeline consists of a reinforced concrete tunnel with a circular cross section diameter of 1.4 m. Its length is 2,220 m from the shoreline. Jets at the nozzles are visible.

The IAHR Media Library would appreciate your image and video contributions to enlarge the content of this web site. [Click here](#).

### Can you help: Biennial IAHR Congress Proceedings – Back Issues

We receive many requests at the IAHR Secretariat for papers from previous IAHR Congresses. In order to complete our collection we seek the following Proceedings:

3rd	IAHR	Congress,	1949,	Grenoble
4th	IAHR	Congress,	1951,	Bombay
5th	IAHR	Congress,	1953,	Minneapolis
7th	IAHR	Congress,	1957,	Lisbon

If you have any of these volumes and would be prepared to donate them to us we would be very grateful
